## INSTALLATION

3D Wall Panel

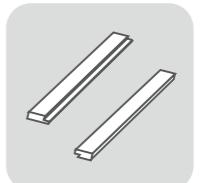

Steam Nail

Tape Measure

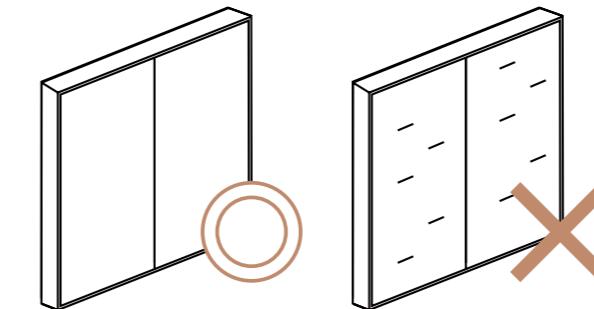

Tape Measure

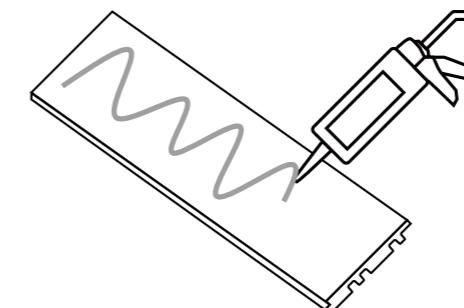

Coor Dinating Mouldings

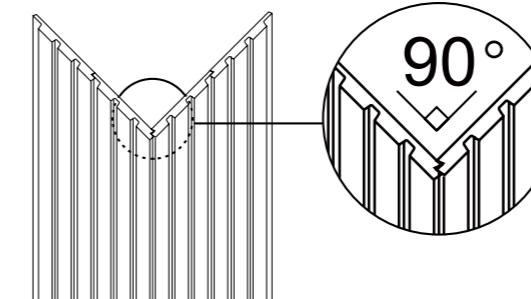

Nail Free Glue

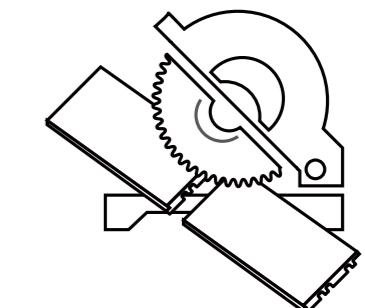

- 1.** Prep-work with plaster board or plywood is recommended before the construction. Please remove wallpapers on the walls before the construction.

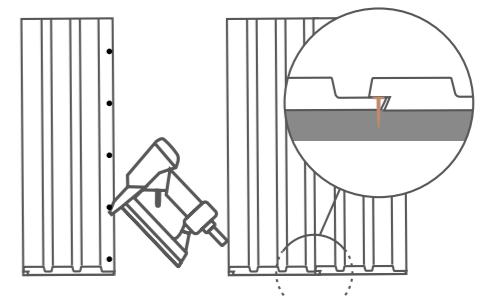

- 3.** Apply nail free glue on the back of wall panel.

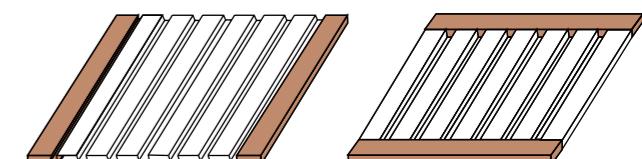

- 5.** For corner, combine the two grooves.

- 2.** Circular saw can be used for cutting.

- 4.** Wall panel can be installed in both horizontal and vertical direction. Apply air-tacker on the edge of the tongue to hide the pin-marks.

- 6.** Coordinating mouldings can be used for clean and nice.
